Councilman Shouhan introduced a bill, by request, in the Council last night authorizing the construction and operation of an elevated railroad and subway.

The proposed route of the road is a sub way, extending from Third and Washing-ton avenue to Eighteenth and St. Charles streets and then on elevated tracks westward to Taylor avenue and ultimately ending at Watson read.

The compensation offered to the city is \$55,000 a year for the elevated franchise and \$5,000 for the subway,

been unable to look into the bill and asked the consideration of the Council in his request.

Previous to this Councilman Gibson spoke against the nessage of the bill. He said that the contemplated raise was an endeavor to place the milary of these men a so-called union scale, which would remain stationary if the bill became a law, while the scale might fluctuate.

He argued that while he was in favor of just compensation in all cases he had ascertained that the bill would result in a discrimination exams the regular employes over the extra men.

The bill provides time and one-half for overtime, and double time for work done on Suneaya and holidays. This clause, Mr. Gibson said, would result in the extra men get ing more pay on a yearly basis than the regulars.

Bills for placing lights on all vehicles after dark, an engine-house at Washington and Academy avenues and an appropriation of \$2,00 for improving the Courthouse yard were passed.

The bonds were approved of F. C. Deher and Patrick Sullivan as juil guards, and of Herman Pfeifer as general superintendent of street construction in the Sirect Department.

The Council adjourned until next Tuesday at 4 p. m.

## Pure Wines Cirect From the Ehine and Moselle.

It is the aim of this house to supply to its patrons the choicest vintages which the world produces. No wines require more careful selection and care in bandling than the wines from the famed and picturesque hillsides that border the Rhine and Moselle Rivers. In order that we might have the BEST, our President, Mr. John Bardenheier, made an extensive trip this last spring along the Rhine, Moselle and Pfalz, seeking among the growers themselves those rare and perfect vintages which the true wine grower hoards in his cellar to the last, and which only a persistent personal search will bring to light. The result-from Hochheim, Bodenheim, Ruedesheim, Deidesheim, Ungstein, Krenznach, Winnigen, Ernst, Traben and Bernkastel we are now receiving one of the largest shipments of wine ever brought here. The grades run from the moderate priced Table Wines to the finest Cabinet Wines, all pure, all guaranteed as to source and viatage, and all possessing the delicacy and charm that appeal to the connoisseur. We recommend these pure, healthful wines to our friends as the best which can be obtained. Our prices are moderate and consistent with quality.
